PRESSURE RELIEF VALVES

The OTECO Pressure Relief Valve offers a low cost protection for slush pumps, manifolds and other expensive equipment. Our product line offers a multitude of choices and connections for any application. Our high quality OTECO shear pins offer great accuracy and repeatability.

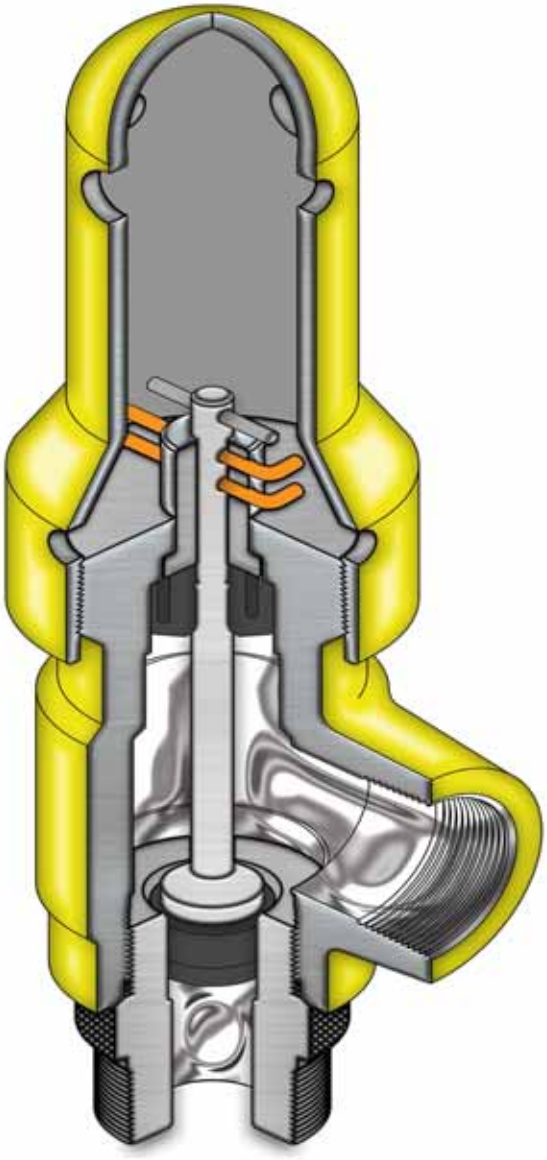

10 DNV Type Approved models to choose from.

CELEBRATING 60 YEARS

PRESSURE RELIEF VALVE GENERAL INFO

- Overpressures are relieved by the shearing of custom ground Oteco Shear Pins.
- All components manufactured in our Houston, Texas, USA facility ensuring quality parts for operation and repair.
- Hardened stainless steel stems and liner subs offer improved corrosion and erosion resistance for longer product life.
- Weco® valves have modified thread safety covers that remove easily for setting and resetting the valve.
- Forged bodies provide greater strength over competitors castings.
- Integral FMC Weco® Hammer Union end connections.
- Low cost operation and repair.
- 10 DNV Type Approved models.

PRESSURE RELIEF VALVE RANGE CHART

Oteco Pressure Relief Valves operate using our high quality Oteco Shear Pins. Precision ground, destructively tested throughout the manufacturing process, our shear pins offer the best accuracy and range on the market. Competitors that use nails cannot offer accurate pressure ranges.

OTECO® PRESSURE RELIEF VALVE PART NO. 30550

SERIAL NO.

5000 PSI MAX. WORKING PRESSURE 250 DEG F MAX. TEMPERATURE

WARNING: INSTALLATION, OPERATION, AND MAINTENANCE OF THIS VALVE MUST BE IN ACCORDANCE WITH OTECO ENGINEERING BULLETINS EB-001, EB-002, & EB-003. COPIES OF THESE BULLETINS MAY BE OBTAINED BY CALLING COLLECT 713-695-3693.
